

Individual, implant-based prosthetics in cooperation with Biomain®

Realize even better results for your patients; place an order with TRI® Dental Implants for customized CAD-CAM prosthetics components, produced by an experienced, high quality manufacturer from Sweden.

To provide you and your patients with the best results possible, we now offer individual prosthetics components in cooperation with **Biomain®**, the Swedish quality provider of custom CAD-CAM prosthetics. In a first step, the Biomain® products *I-Bridge and I-Bridge2* for TRI-Vent implants with the prosthetic platform 3.5 mm will be available (starting October 2011). Biomain® and we will offer these products in titanium, ceramics, and cobalt-chrome.
